Unable to Register for Sustainability Core Courses?

The Sustainability Studies Minor core courses are offered in both fall and spring each year. With students from seven colleges and fifty majors enrolled in the minor, offering the courses at a time that works for every student becomes a challenge. The spring 2013 scheduled times for these courses have the ability to change before registration in November in order to accommodate the majority of faculty and students’ scheduling needs. If you are a senior with a capstone or other non-negotiable course requirement for spring 2013 that conflicts with the current scheduled time for either of the core courses, please use this form to indicate potential class times that will work for you.

Sustainability Education Advising and Enrollment
Need an appointment with the Sustainability Education Coordinator, Beth Mercer-Taylor, to discuss the minor? Utilize this link to set up a time to meet with her.

If you haven't yet enrolled in the minor, you can do so on our website!

**Opportunities in Sustainability**

**Sustainability Leadership Program**

Interested in becoming a Sustainability Leader? The Institute on the Environment is accepting applications through September 25th for acceptance into a brand new Sustainability Leadership Program.

**Spring 2013 UROP Opportunities**

Interested in completing a UROP this spring? Check out our website for information on upcoming opportunities and how to apply.

**Study Abroad Opportunities**

Check out this list of Sustainability-related Study Abroad Opportunities! Also, check out a new semester-abroad opportunity to study sustainability in Nepal!

**MPS Farm to School Volunteer**

Volunteer with Minneapolis Public School's Farm to School program where elementary age children learn about locally grown food and the processes through which the food goes in order to get to their plates.

**Upcoming Sustainability Events**

**Future Earth Exhibit**

Visit the Future Earth Exhibit at the Science Museum. Jon Foley, the Global Landscapes Initiative team, and Resident Fellow David Tilman all represent the Institute on the Environment with their work on the exhibit.

**Sustainability Events Calendar**

Be sure to check out our Sustainability Events Calendar for upcoming events!
